

**Research Methods for the Social Sciences (RMSS) Certificate
(15-18 credit hours, depending on the distribution of courses by credit hour)**

The RMSS Certificate is designed for students interested in interdisciplinary social science research. While each social science has its own approaches to research, there are many methods and techniques of data collection and analysis that are shared across disciplines. The goal of the RMSS program is to encourage and support the broad understanding and application of many social science research methodologies and to help bridge the divide between disciplines and methodologies.

To satisfy the requirements for the certificate, a student must complete a minimum of 15 semester credits, including two core courses, two complementary courses, and the RMSS Proseminar.

Core Methods Courses (CMC) (9-11 credits)

Required I. (Select one): Students can apply the methods course taken in their major discipline to the certificate or choose to take a course in another discipline. Students choosing a course in another discipline should be advised that there may be pre-requisites for the class in that department.
